Codes in Building

Our Understanding Building Codes and Standards course brings you up to speed on the basic guidelines around conducting business in the building industry. Undertaking this course you will have a sound understanding of different codes and standards in the building industry such as Type B construction, Class 1 and 10 buildings plus Class 2 to 9 for type C Buildings.

The benefits of Understanding Building Codes and Standards

- Receive a statement of attainment for the units you have undertaken
- Builds on the knowledge, training and skills you have worked hard to attain
- Solidifies and formalises the experience and on-the-job skills you have developed
- Provides clear articulation pathways into a diploma course

*100% online for those working in the industry, blended for those who are not working in the industry

Understanding Building Codes and Standards teaches you how to correctly conduct business in the building industry.

Learn the codes and standards to help you better understand the building industry from a compliance standpoint and make yourself an invaluable asset of knowledge amongst your peers in the building industry.

Join us for Understanding Building Codes and Standards.

Learn about Building Codes

Gain a better understanding of building codes and the skills and knowledge required to access, interpret, and apply relevant building codes and standards to the construction processes for Type B construction.

NCC Class 1 - 10 Buildings

You will be able to interpret the National Construction Code (NCC) and other codes and standards related to a specific building including Classes 1 and 10 buildings, to a maximum of two storeys. You will cover the structure of the NCC, as well as the ability to access relevant information from the code as applicable to various building projects.

NCC Class 2 - 9 Type C Buildings

You will be able to interpret and apply relevant building codes and standards applicable to National Construction Code (NCC) Class 2 to 9 Type C building projects.

Course Structure

Duration | 4-6 months

Understanding Building Codes and Standards

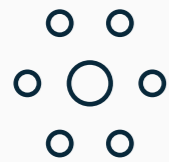

Unit code	Unit name
CPCCB5001	Apply building codes and standards to the construction process for Type B construction
CPCCB4001	Apply building codes and standards to the construction process for Class 1 and 10 buildings
CPCCB4053	Apply building codes and standards to the construction process for Class 2 to 9, Type C buildings

Why Everthought Now?

100% online training

Study anywhere, at any time. Most of the training happens online, so you can fit it in around your current work from wherever you are.

Mentor Led to Guide you Through Every Step

Online access to the highest quality industry mentors and trainers to guide you through the course content.

Enrolment

The courses requires no prerequisites; even if you are brand new to Trade, with the right attitude and appetite to learn, you will be able to join the course.

Tech Requirements

While there are no prerequisites for the course, you will need to have access to a laptop or desktop computer with a reliable internet connection.

Assessments

To demonstrate competency in a unit of competency, you will undertake a number of assessment pieces. The assessments are made up of a mix of questions, reports, and/or practical demonstrations. Some assessment pieces will require observation. It is recommended that you have access to a webcam or a smart phone and have access to a live construction worksite. For those who do not have access to a worksite, observations can be undertaken at one of our purpose built training facilities in Brisbane or Perth.

What happens next?

Here's what you can expect after you've applied:

- You can go on to complete the online enrolment process or contact your course advisor with any questions you might have
- Once enrolled, you will receive your log in details to our online learning platform, Everthought Now where you can commence your study
- Upon completion you will receive a Statement of Attainment for successfully completing the requirements for:

- CPCCB5001 Apply building codes and standards to the construction process for Type B construction
- CPCCB4001 Apply building codes and standards to the construction process for Class 1 and 10 buildings
- CPCCB4053 Apply building codes and standards to the construction process for Class 2 to 9, Type C Buildings
