

Business Builders - Launch

The future is yours.
Take it.

EVERTHOUGHT
BUILDING YOUR FUTURE

Launch your trades business

If you have ever looked at your boss and thought that you could do what they do, and do it better, then this course is for you.

The Business Builders - Launch course was designed to guide you through the process of launching your own trades business. There can be an overwhelming amount of research, compliance and decisions to be made when launching a new business so this course is designed to step you through the process.

As you move through the course, you will not only learn the process, but you will actually practically apply it as you go. Learn how to set up an ABN by doing it, sign up for and set up your accounting and field service software and learn the process of budgeting and forecasting by building your own. By the time you complete the course, you will have everything in place to effectively manage your business.

You'll learn the basics to start off your business, including writing a business plan, opportunities and costs, structures, key software and more.

You will then move on to learning how to grow your business by focusing in on marketing and sales, as well as refining the essentials such as building a website, social presence and how to effectively quote.

The course will conclude by equipping you with the skills to manage your business, now that all the fundamentals are in place. This involves applying team management skills, asset management and cash flow forecasting.
