

AHC30921 Certificate III in Landscape Construction

The AHC30921 Certificate III in Landscape Construction is an entry level qualification that focuses on a range of landscaping practices and techniques, including paving, surveying, retaining wall construction, installing drainage and irrigation systems, operating machinery and equipment, stonework, and project costing skills.

This course recognises your skills and prior learning that enables you to perform a range of landscaping practices and techniques in domestic, commercial and public settings.

Everthought assesses your skills, knowledge and

experience against nationally accredited qualifications or units of competency. This means that you may not need to complete any additional formal study where you can provide sufficient evidence of your industry experience or previous training. Gap Training can be provided as required. Everthought will guide you through its easy five-step process.

Successful completion of this course will qualify you to work as a landscape gardener, greenskeeper, or parks and gardens tradesperson.

Potential gap training is provided by accredited, trade trainer/assessors with current industry experience.
