

CPC40120 Certificate IV in Building and Construction

This qualification covers the skills and knowledge needed by professional builders, providing skills and techniques to manage a successful building business, such as how to plan construction work, apply building codes and supervise on-site construction projects.

Students gain trade outcome in building, covering work in residential and commercial applications. The qualification has core unit of competency requirements that cover common skills for the construction industry, as well as a specialist field of work. Completion of the general induction training program specified by

the National Code of Practice for Induction Training for Construction Work (ASCC 2007) is required before entering a construction work site - achievement of unit CPCCWHS1001 covers this requirement.

This program is a combination of trainer-led virtual classrooms and practical workshops delivered in Everthought's purpose designed facilities where emphasis is placed on providing hands-on training. Training is delivered by accredited, trade trainer/assessors with current industry experience.

Everthought assesses your skills, knowledge and experience against nationally accredited qualifications or units of competency. This means that you may not need to complete any additional formal study where you can provide sufficient evidence of your industry experience or previous training. Gap Training can be provided as required. Everthought will guide you through its easy five-step process.

Potential gap training is provided by accredited, trade trainer/assessors with current industry experience.

Course Information

Duration

2 – 8 weeks dependant on levels of experience and knowledge

Entry Requirements

3 to 4 years demonstrated experience with a minimum of two work referrals from qualified builders

Career Opportunities

Builder Site Supervisor
 Construction Manager

Location

Virtual assessment plus completion of any Gap Training required

Start Date

Enrolments are taken on an ongoing basis. Students can make an enquiry online at any time, or over the phone or in person during business hours.

Course Information

Duration

12 months

Prerequisites

There are no pre-entry requirements to the course; even if you are brand new to the Building Trade, with the right attitude and appetite to learn, you will be able to join the course. Prior to commencement, you will be required to undertake a quiz that will enable us to identify if additional learning support may be required.

Aside from the quiz, there are no pre-entry requirements to the course; even if you are brand new to the Building Trade, with the right attitude and appetite to learn, you will be able to join the course.

Career Opportunities

Builder Site Supervisor
Construction Manager

Assessment

To demonstrate competency in each unit, you will undertake a number of assessment tasks. The assessments are a combination of knowledge questions, scenario based and practical activities. Your trainer will provide guidance and support to assist you in completing your assessments successfully.

Start Date

Enrolments are taken on an ongoing basis. Students can make an enquiry online at any time, or over the phone or in person during business hours.
